

Tables

Art. 300  
Table with two shelves

Article 300 is a table with two shelves with a structure in tubular steel and shelves in Formica covered block board. The accurate construction technique and top-quality wheels make the table easy to handle even when fully loaded. Useful for quick and easy indoor handling of various materials in a variety of industrial and commercial sectors. Various changes and variations are available on request.

- Painted.
- Shelves in Formica covered block board.
- Revolving rubber wheels with thread guards.
