

Single or double sided trolleys and containers

Art. 405 Trolley

Article 405 is a two-sided trolley made of tubular steel with loading platform in Formica covered and trimmed block board. The accurate construction technique and top-quality balance wheels make it easy to handle, strong and long-lasting, ensuring it remains easy to move even when fully loaded. Art. 405 can be used in various product sectors and is even suitable for handling heavy loads. Various changes and variations are available on request, such as: the option to have the platform in sheet metal and/or the sides covered in wood or sheet metal and even the option to have the wheels fitted at the corners instead of balance wheels.

- Painted.
- Platform in Formica covered and trimmed block board, 149x69 cm.
- Rubber wheels with thread guards, 2 fixed D.180 and 2 revolving D150.
