

## Wire mesh trolleys and containers

### Art. 524 Container

Article 524 is a container made with metal wire and a load-bearing structure in tubular steel. The special structure and accurate construction technique make it light, easy to handle, strong and long-lasting. It is suitable for the storage and display of various types of goods, with light to moderately heavy loads. Easy to disassemble in order to save space when not in use. 3 different sizes are available and the structure is fully chrome plated.

- Chrome plated.
