

Goods trolleys and containers

Art. 352 Goods trolley

Article 352 is a goods trolley made of tubular steel and steel sheet metal. The accurate construction technique makes it light, easy to handle, strong and long-lasting, whilst the high-quality, rubber wheels make it easy to move even when fully loaded. The sheet metal footplate that makes it possible to load goods quickly and easily can be adapted on request. Art. 352 can be used in various product sectors and is suitable for handling light to moderately heavy loads. Various changes and variations are available on request.

- Painted.
- Rubber wheels.
