

Cone trolleys and containers

Art. 473 Cone trolley

Article 473 is a cone trolley made of tubular steel and steel rod. The special structure, accurate construction technique and high-quality wheels make it light, easy to handle, strong and long-lasting. It has an upper ring that can be used to apply a dust guard. Art.473 offers quick and easy indoor handling and storage of yarn cones.

- Painted.
- Revolving rubber wheels with thread guards.
- Upper fitting for application of a dust guard.
